The Benefits of Modern Plumbing.

One of the most generally approved ideas of modern plumbing is that of installing one-piece lavatories supplied with hot and cold running water in the sleeping apartments and dressing chambers of the individual members of the household.

· The benefits derived from this arrangement will not only be found necessary to modern living, but also prove a source of convenience and comfort to the occupants.

Send for a copy of booklet "Modern Lavatories," which shows the complete line of "Standard" One-piece Lavatories with approximate prices in detail.
